

VACUUM CONVEYING SYSTEM

Toshniwal vacuum pump provides vacuum conveying system to help company raise their productivity especially in the food, pharmaceutical, chemical and mineral industry, where it demands high degree of safety, hygiene and intense operation.

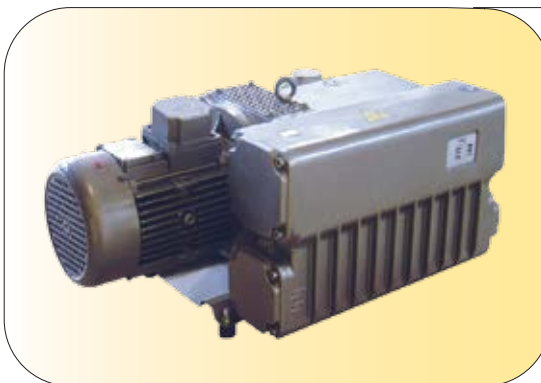

FEATURES

- ◆ Optimized design for highest possible hygiene
- ◆ Easy to disassemble/assemble and clean
- ◆ Modular design for easy adaptation for unique production environment

ADVANTAGES

- ◆ Dust free materials transfer
- ◆ Gentle to the material
- ◆ Reliable low weight system
- ◆ Low maintenance & easy cleaning
- ◆ Easy installation & control
- ◆ Designed for sanitary applications

| | | TMS 105 | TMS 160 | TMS 300 |
|----------------------------|--------------------|---------------|---------|---------|
| Nominal capacity | M ³ /hr | 100 | 150 | 300 |
| Ultimate pressure | Mbar | 0.5 | | |
| Operating voltage | | 415V 50 Hz 3Ø | | |
| Motor power | kW | 2.2 | 3.75 | 5.5 |
| Motor speed | Min ⁻¹ | 1400 | | |
| Weight (with motor) | kg | 83 | 109 | 188 |

The ultimate in mixing technology...
